

To the Federal Communications Commision . GentlemenI am a United States citizen and a regestered voter.I subscribe to XM Satellite Radio and pay a monthly fee for there service . The quality of there broadcast is second to none.I have the ability when traveling to listen to stations of my choosing without commercial interuption and to obtain reliable traffic and weather information instantly as i need it any where in the country that my travel brings me.

I am requesting as a citizen that you reject The National Association of Broadcasters petition 04-160. If the NBA has a problem with quality broadcasting then they should put there own house in order and not attempt to stifle competition.Thank you for your consideration. William J. Hicks
